# Housing & Rental Tips

## If I Rent, What Rights Do I Have?

If you rent your place of residence, the Arizona Residential Landlord/Tenant Law applies to you. This law explains what rights and responsibilities landlords and tenants have. For example, it explains what to do when a tenant needs the landlord to make repairs and what a landlord needs to do to legally evict a tenant. Free copies of the law are available from the Arizona Secretary of State's office online at [http://www.azsos.gov/publicservices/publications/Residential\\_Landlord\\_Tenant\\_Act/Residential.pdf](http://www.azsos.gov/publicservices/publications/Residential_Landlord_Tenant_Act/Residential.pdf) or a tenant may receive one (1) free hard copy from the Secretary of State's Office by calling **602-542-4086**. Free and sliding-fee scale legal services may also provide many types of services to people with qualifying low incomes, including helping tenants who are being evicted, by representing them in court, free of charge (see page 00).

## What if I Have Questions?

Tenants and landlords who have questions may call Community Action Programs for information and referral (see page 4). To contact the Organization for Arizona Tenants Association call: **602-257-8987**. Their operators can answer basic questions on the landlord/tenant law and refer you to other agencies if you need more help or have other needs, such as money for rent or mortgage payments.

# Arizona Housing Authorities

## Program Description

Your local Housing Authority offers a variety of programs that may be able to help you find or maintain affordable housing. Although each housing authority is slightly different, they offer many of the same programs. These include, but are not limited to:

- **Vouchers for rental assistance**, such as Section 8. Participants in these programs receive a voucher from the agency that pays for a portion of the rent directly to the landlord. (Generally, you will pay 30% of your monthly income towards the rent.) It is up to you to locate a privately owned house, duplex, apartment, or mobile home which qualifies for the program and to ensure that the landlord is willing to rent under the program. The home must pass an inspection prior to approval.
- **Mortgage Assistance programs** help with down payment assistance or with making your monthly mortgage payment. Some programs may help each month while other programs only assist with a one time catch-up payment.
- **Conventional Public Housing** consists of houses, duplexes or apartments which are owned by the Public Housing Authority and rented to low-income families at an affordable rent, usually 30% of your monthly income.
- **Rehabilitation of Owner-Occupied Homes** provides home owners with help making major or minor repairs to your home. It is important that you check with your local housing authority about these assistance programs as they change over time.

## Eligibility Information

Eligibility is based on your income and the composition of your family (how many children, whether you are disabled, elderly, etc.). The income guidelines vary by community as they are based on the average family income for that particular area. Some programs only accept families, but others accept single persons. Many have programs specifically for the elderly or disabled. Contact your local Housing Authority to see what programs are available to help you. Remember, every case is different. You need to talk to them yourself and not just rely on your friend's or neighbor's experience.

## Documents Needed

The documents you need will depend on the type of help you are seeking, but may include: proof of income; mortgage information (if applicable); checking/savings account information; proof of marriage/divorce (if applicable); birth certificates and Social Security cards for everyone in the household. If you do not have a Social Security card, you may be required to show a picture ID and to sign a notarized affidavit of identity.

## How to Apply

You should contact your local office for more information on how to apply. In most cases you will need to apply in person, but you should call first and see if you need to make an appointment. The waiting period for help varies from area to area. In some places it is as long as 1 to 5 years, but this is not true in every case. Some agencies that are not currently accepting applications will announce in the local paper or on the local radio station when they will begin accepting them again. Contact the agency where you plan to apply as each Housing Authority has its own rules and guidelines.

## Where to Apply

Contact the Housing Authorities nearest you. If you do not see a Housing Authority listed in your area, please call the **Arizona Department of Housing at 602-771-1000**.

### Cochise County

## Fair Housing Information

### Fair Housing Law

It is illegal for you to be discriminated against because of your race, color, national origin, religion, sex, disability (physical or mental), and familial status (if there are children or a pregnant woman in the family) if you are renting, buying or building a home. You cannot be discriminated against when applying for a mortgage, home improvement loan or homeowner's insurance. The law also prohibits discrimination on appraisals, legal services and in services offered by real estate agents. Essentially every type of activity that has to do with renting or buying a home is protected by this law. If you believe you have been discriminated against, contact Housing Advocacy and Legal Aid Services (see page 97). It will cost you NOTHING to ask questions or to file a complaint.

# Home Rehabilitation and Emergency Home Repairs

Home rehabilitation and repair programs assist homeowners with making necessary repairs to homes to bring them up to local housing standards as well as to improve the comfort and safety of occupants.

Examples of types of work that can be approved for housing rehabilitation include roof replacement, electrical rewiring, painting, major plumbing repairs and replacement of doors and windows. Homes approved for rehabilitation must meet Arizona State Home Rehabilitation Standards upon completion of work.

Emergency home repairs include smaller items such as patching of the roof, addition of a wheelchair ramp, an emergency electrical repair or removal of lead based paint. Generally emergency home repairs are directed towards one or more hazardous conditions which threaten the health and safety of occupants.

## Eligibility Information

Eligibility is based on your income, the number of people in your family, home ownership status and citizenship status.

Programs vary by community based on the source of funding used to rehabilitate or repair your home. Some programs may be for older adults only and some only for families.

Contact the agency closest to you. The agency will determine what programs are available to help you. A list of programs generally available through each agency is provided below.

## Documents to Bring

Each housing rehabilitation and home repair program is different so the types of documents you are required to bring to your application interview will vary.

Generally, you will be required to provide proof of homeownership, proof of income, family member verification such as birth certificates and proof of any assets such as checking and savings accounts.

## How to Apply

You can contact the Housing Authority (listed on page 74) closest to you or one of the other home rehabilitation or repair agencies near you listed below. In most cases you will need to apply in person after you make an appointment. Because funding for home rehabilitation and repair programs is limited there is normally a waiting list.

## Where to Apply

Contact one of the home rehabilitation or repair agencies listed below or contact the Housing Authority closest to you, listed on page 74.

# Home Repair and Rehabilitation Agencies

## Apache County

### **Town of Eagar**

# Weatherization Assistance Program (WAP)

## Program Description

The U.S. Department of Energy's Weatherization Assistance Program (WAP) reduces heating and cooling costs for low-income families by improving the energy efficiency of their homes while ensuring their health and safety. Using the most advanced technologies and testing protocols available in the housing industry an individual plan is developed for each applicant's home. Typical measures include installing insulation in walls, floors and attics; reducing air infiltration and pressure imbalances; sealing and repairing ducts; tuning and repairing heating and cooling units.

For low-income tenants of rental units, weatherization efforts must be arranged through the landlord by the Community Action Program. Often, the landlord is expected to contribute to the cost of the weatherization measures.

Once the application for WAP benefits is completed, it can take several months to approve funding for services. If the situation is an emergency, individuals should apply for the Utility Repair, Replacement, Deposit (URRD) program (see page 79).

## Eligibility Information

To qualify for this program, the applicant must have an income that falls within the program rules. Please contact the agency nearest you for specific eligibility information. Priority for service is determined at the local agency level.

## Documents to Bring

Applicant must show proof of home ownership or rental agreement. Applicants must also provide proof of income for the last 90 days, including copies of pay stubs, award letters, or Social Security checks. Verification of legal U.S. resident status is required. Additional documents may be required - call your local Community Action Program before your visit for a complete list of what you should bring.

## Where to Apply

To apply for assistance, please contact one of the Agencies listed below.

### Apache, Navajo, Coconino and Yavapai Counties

**Northern Arizona Council of Governments (NACOG)** 928-774-1895

### Gila County

# Utility Repair, Replacement, and Deposit (URRD)

## Program Description

URRD provides assistance to eligible individuals in crisis situations with deposits for utility services and to make needed repairs and/or replacements to existing utility related appliances or utility related water and sewer systems.

The client must provide a written statement that repairs and replacements have been completed before payment is made to the vendor.

Assistance is limited to once in a 12-month period and may not exceed \$2,000 per fiscal year (July-June).

## Eligibility Information

An eligible individual must be a resident of Arizona; U.S. Citizen or qualified legal resident. Applicants must meet one of the following crisis reasons: loss or reduction of income; an unexpected and unplanned expense that caused lack of resources; or a condition that endangers the health and safety of the household. Household income must meet program income guidelines. The applicant must be the owner of the appliance or system to be repaired and/or replaced.

## Documents to Bring

Applicants must provide documentation to verify identity and citizenship; proof of income for the last 30 days, including copies of pay stubs, award letters or other documentation, social security numbers for all household members and proof of ownership of the appliance or home. For deposits, copies of the applicant's gas, electric and/or water bill must be provided.

## Where to Apply

To apply for assistance, please call or visit your local Community Action Program (see page 4).

# Habitat for Humanity

Habitat for Humanity International is a nonprofit, ecumenical Christian housing ministry.

HFH invites people of all backgrounds, races and religions to build houses together in partnership with families in need. Habitat has built more than 225,000 houses around the world, providing more than 1 million people in more than 3,000 communities with safe, decent, affordable shelter. HFHI was founded in 1976 by Millard Fuller along with his wife, Linda.

Through volunteer labor and donations of money and materials, Habitat builds and rehabilitates simple, decent houses with the help of the homeowner (partner) families. Habitat houses are sold to partner families at no profit and financed with affordable loans. The homeowners' monthly mortgage payments are used to build still more Habitat houses.

Habitat is not a giveaway program. In addition to a down payment and the monthly mortgage payments, homeowners invest hundreds of hours of their own labor — sweat equity — into building their Habitat house and the houses of others.

Throughout the world, the cost of houses varies from as little as \$800 in some developing countries to an average of nearly \$60,000 in the United States.

Habitat houses are affordable for low-income families because there is no profit included in the sale price. Mortgage length varies from seven to 30 years.

## Eligibility Information

Families in need of decent shelter apply to local Habitat affiliates. The affiliate's family selection committee chooses homeowners based on their level of need, their willingness to become partners in the program and their ability to repay the loan. Every affiliate follows a nondiscriminatory policy of family selection. Neither race nor religion is a factor in choosing the families who receive Habitat houses.

## How to Apply

If your family, or a family you know, is in need of decent, affordable housing, contact the Habitat affiliate nearest you, listed below. Your local affiliate can give you information on the availability, size, costs and sweat-equity requirements for Habitat houses in your area, as well as information on the application process.

For more information on Habitat for Humanity at the International level, please contact:
