

Sign up for the Arizona Legislature's Request to Speak (RTS) System

Request to Speak (RTS) is an online system that Arizona's lawmakers use to collect feedback on pending bills. Signing in to RTS is a great way to have your voice heard at the state Capitol - even if you're far from Phoenix!

To sign up for RTS you must create an account in person using a special kiosk at the state Capitol. However, it's not easy for everyone to make that trip. To make this process easier and to promote participation by our statewide partners, Wildfire will create an RTS account for you to access remotely.

If you wish to have Wildfire create an RTS account for you, please fill out each of the following fields. Mail the completed form to [340 E. Palm Lane, Suite 315, Phoenix, AZ 85004](#). You can also email it to info@wildfireaz.org.

We will send you a confirmation email when your account has been created. Please allow 3 business days. Once you are registered, you can login to RTS at <https://apps.azleg.gov>.

Thank you for your participation!

*All fields are required. Thank you for printing clearly.
Wildfire will never sell or distribute your information for any purpose.*
