Do you need help getting medical care?

The Arizona Health Care Cost Containment System (“AHCCCS”) is Arizona’s Medicaid program and it pays for health insurance for low-income adults, children, pregnant women, the elderly and persons with disabilities. AHCCCS pays for medical care and it also helps pay some Medicare costs. Most persons sign up for a health plan and get their health care through that plan.

We prepared this handout to explain the AHCCCS medical assistance program. This is general information and does not discuss all situations. The facts of your case are important. We will update this handout as more information is available during the COVID-19 crisis.

In response to the COVID-19 pandemic, there have been many changes to Arizona’s AHCCCS Medical Assistance program.

- Persons will not lose medical benefits during the pandemic.
- Testing for COVID-19 and treatment are covered services.
- Persons will not have to pay premiums or co-pays for AHCCCS medical assistance during the pandemic.

Even if you applied for AHCCCS in the past and were denied or recently lost coverage, you now may be eligible for benefits.

If I have AHCCCS Medical Assistance now, will I lose my medical benefits during the COVID-19 pandemic?
